

# Seif Eldin ELMuselmani

## Full Stack Software Engineer

Zagazig, Egypt · +20 122 381 7860 · eldenseif645@gmail.com

[LinkedIn: seif-elmuselmani \(7K+ Followers\)](#) — [GitHub: seif-elmuselmani](#)

## SUMMARY

Analytical Full Stack Developer (.NET & MEAN Stack) and winner of the **DEPI national competition**. Specialist in **backend scalability**, **Clean Architecture**, and **system analysis**. Active tech community contributor with **7,000+ LinkedIn followers**. Leveraging professional experience in building production-ready applications from zero-to-one to train **generative AI models** through precise **technical feedback**, debugging, and high-standard **code reviews**.

## EDUCATION

### Bachelor of Computer Science

Faculty of Computers and Information, Zagazig University

Sep. 2022 – Jun. 2026 (Expected)

Cumulative Grade: Very Good

## PROFESSIONAL EXPERIENCE

### MEAN Stack Developer (Professional Training)

National Telecommunication Institute (NTI)

Feb. 2026 – Present

Offline

- Intensive 210-hour program focusing on full-stack development using **JavaScript**, **TypeScript**, and **Node.js**.
- Developing and debugging complex server-side applications with **MongoDB** and **Angular**.
- Implementing **Test-Driven Development (TDD)** and rigorous debugging strategies to ensure software reliability and performance.

### Core Team Member (Backend & System Analysis)

Digital Egypt Pioneers Initiative (DEPI)

Jul. 2025 – Jan. 2026

Hybrid

- Graduated with Honors and secured **1st Place** among nationwide participants for technical superiority.
- Designed and maintained scalable backend systems using **.NET 8** and **Clean Architecture**.
- Conducted regular **Code Reviews** and applied **SOLID principles** to improve system maintainability and code readability.

### Freelance Software Developer

Self-Employed

2024 – Present

Zagazig, Egypt

- Managing collaborative development workflows using **Git** and a technical team to deliver high-quality programming projects.
- Leading the **zero-to-one** backend development, **API contracts design**, and **system analysis** for multiple web-based solutions.
- Conducting rigorous **code reviews**, debugging complex logic issues, and enforcing real-world engineering standards.

## KEY PROJECTS

### Shryan (Comprehensive Healthcare Platform) — .NET 8, Clean Architecture, SQL Server

- Ranked 1st Place** in the Digital Egypt Pioneers Initiative (DEPI) nationwide competition for technical excellence.
- Architected a full-scale ecosystem connecting pharmacies and clinics, ensuring high **system scalability** and maintainability.

- Developed robust backend services using **Clean Architecture** to decouple business logic from external concerns.

#### **Nabd (AI-Driven Diagnosis System)** — *ASP.NET Core, ML.NET, Python, React*

- **Project Lead** for the senior graduation project, managing a technical team to build an intelligent healthcare platform.
- Integrated **AI Models** for disease diagnosis, utilizing both .NET and Python for high-accuracy clinical decision support.
- Engineered a centralized API and database schema using **EF Core Code-First** to manage patient-doctor interactions.

#### **Kshaf (Sports Talent Scouting Platform)** — *MongoDB, Express.js, Angular, Node.js*

- Developed a full-stack scouting application at the National Telecommunication Institute (NTI) using the **MEAN Stack**.
- Implemented complex search and filtering algorithms to match talent scouts with athletes efficiently.
- Leveraged **TypeScript** and **Asynchronous Programming** to ensure a responsive and high-performance user experience.

## **TECHNICAL SKILLS**

---

- **Languages:** C#, JavaScript (ES6+), TypeScript, Python, SQL, HTML5/CSS3.
- **Frameworks:** .NET 8, ASP.NET Web API, Node.js, Express.js, Angular, React, SignalR.
- **Databases:** MS SQL Server, MongoDB (MEAN Stack).
- **Tools & Concepts:** Git/GitHub (Advanced Workflows), Postman, Clean Architecture, SOLID, TDD, Unit Testing (Mocha/ NUnit), Code Review, System Analysis, Debugging.
- **Soft Skills:** Technical Documentation, Technical Writing, Complex Problem Solving, Detailed Code Evaluation.
- **Languages:** English (Professional Working Proficiency), Arabic (Native).
